Name : Sai Dhanashri

Roll No : AA.SC.P2MCA2307050

Write a program to create a file and read the file content using node.js

Coding :

```
Const fs = require('fs');
```

// File name

```
Const fileName = 'example.txt';
```

// Content to write into the file

```
Const content = 'Hello, this is a sample text written to the file.';
```

// Step 1: Write content to the file

```
Fs.writeFile(fileName, content, (err) => {
  If (err) {
    Console.error('Error writing to the file:', err);
    Return;
  }
  Console.log(` File "${fileName}" created and content written.`);
  // Step 2: Read content from the file
  Fs.readFile(fileName, 'utf8', (err, data) => {
    If (err) {
      Console.error('Error reading the file:', err);
      Return;
    }
    Console.log('File content read successfully:');
    Console.log(data);
  });
```

```
});
```

Output :

File "example.txt" created and content written.

File content read successfully:

Hello, this is a sample text written to the file.
